

## **AWMP 2nd Intersessional Workshop**

### **DIRECTIONS TO DIFRES**

DIFRES is situated at Charlottenlund Castle, Jægersborg Allé 1, which is 3 minutes walk from Charlottenlund S-station. Walking from the station towards the Danish Aquarium (signposted at the station) will take you to the castle.

Just a few words about which trains to take to get to Charlottenlund Station.

If you arrive directly from the airport and your airport train continues north (direction Helsingør or Nivå) after stopping at Copenhagen Central station, stay on it until a station called Hellerup. From there you take one of the two S-train lines (lines C and F+) towards Klampenborg and get off at Charlottenlund Station (first stop after Hellerup).

If your airport train DOES NOT continue north after Copenhagen Central station, get off there and take S-train line C towards Klampenborg and get off at Charlottenlund Station (first stop after Hellerup), or take the first S-train line to Hellerup (there are several lines going from the Central station to Hellerup) and at Hellerup take one of the two lines (lines C and F+) towards Klampenborg and get off at Charlottenlund Station (first stop after Hellerup).

Getting from Central Copenhagen to DIFRES is fastest by S-trains, and you can go to Copenhagen Central Station, Vesterport Station, Nørreport Station or Østerport Station and take any line north that stops at Hellerup. From Hellerup take one of the two lines (lines C and F+) towards Klampenborg and get off at Charlottenlund Station (first stop after Hellerup).

When you go down the stairs after leaving the S-train platform at Charlottenlund Station, turn right below the stairs (away from the station building) through the small tunnel, up the stairs and continue along the path through the small wood. At the first traffic light you come to, you can see Charlottenlund Castle a little way down the road, which is called Jægersborg Allé. Walk around the castle to the main entrance, and the meeting room is just in front of you when you come through the front door.

Link to a webpage showing Charlottenlund S-train Station and the nearby Charlottenlund Castle. The castle is situated just above the red dot.
